Dear Member,

SUB: Letter of Election

We are pleased to inform that you have been enrolled as Member (Membership No: **M-1647385**) of this Institution on **30 Apr 2019** and placed in **AS Division**. The list of Privileges and Code of Ethics for Corporate Members are available at our website www.ieindia.org. You may expect your membership certificate and photo-Id card within next 2-3 months time.

According to your address, you have been attached to following IEI Centres/ Office:

Kanchepuram Local Centre
Tamilnadu State Centre

Details of the contact information of the above Centre(s) are available at our website www.ieindia.org.

Please quote your membership number in all future correspondence with this office. You may update your contact information by logging in through our website www.ieindia.org. To avail the password, you should click on the 'Forget Your Password' link next to the Login at our website www.ieindia.org and the password will be sent automatically by sms/email. This will also facilitate you to make e-access to the IEI journals.

For money receipt you are advised to contact Director(Finance).(e-mail: finance@ieindia.org)

For any query regarding membership , please contact us through :(033) 40155400 /(033) 40106 299/246 or membership@ieindia.org.

With Regards,

Secretary & Director General

Note:This is an electronically generated document and hence is valid without any signature.

The Aeronautical Society of India

*Founded in 1948 to advance the knowledge
of Aeronautical Sciences and Aircraft Engineering*

The Council of the Society is pleased to certify that

Dr. P. N. Kadiresh

has qualified for membership and has been elected as

Member

of the Society on 09th May 2009

ASHOK BHUSHAN

*Honorary
Secretary General*

Sub: INSA Visiting Scientist Fellowship (F.Y. 2016-17) to visit CSIR-National Metallurgical Laboratory Burmahmines, Jamshedpur, Jharkhand

Dear Dr. Mundari,

I am happy to inform you that you have been selected for the award of INSA Visiting Scientist Fellowship during the financial year 2016-2017 under which you can visit the above mentioned Institute for a period of two months.

Academy will provide you the following for the proposed period of visit.

1. Honorarium Rs. 9,000/- p.m. plus D.A. Rs. 6,000/- per month (@ Rs. 200/- per day x 30 days). Honorarium is subject to income tax deduction.
2. To and fro travel expenses from the Parent Organization to the Visiting Institute by 2nd AC Sleeper or 1st Class, subject to production of tickets.
3. A Scientist selected as Visiting Fellow should avail this Fellowship during 2016-2017 i.e. till March 31, 2017. The following documents may kindly be sent after commencement of the visit.
 - a) Certificate signed by the Head of the Parent Organization indicating that the deputation has been agreed with the period of deputation of the date mentioned therein.
 - b) Certificate signed by Head of the Visiting Institute indicating that the said period with date has been agreed for your work in that Institute.

Dr.Vajjiravel Murugesan
Assistant Professor
Department of Chemistry
B.S. Abdur Rahman University
Vandalur
Chennai – 600048.

Dear Dr. Murugesan,

Sub: **Visiting Fellowship Programme 2014-15**

In response to your application for the Visiting Fellowship at JNCASR, I am happy to extend the invitation of the President, Jawaharlal Nehru Centre for Advanced Scientific Research, to be a '**Visiting Fellow**' of the Centre for a period of three months. During your tenure, you will be associated with **Prof. K.S. Narayan, Chemistry and Physics of Materials Unit, JNCASR, Bangalore** and work on an identified research problem.

You will be paid an honorarium of **Rs. 25, 000/- per month** during your visit. In addition, you will be reimbursed **once**, the travel allowance as per the JNCASR norms. The exact period of your fellowship may be chosen in consultation with your host at JNCASR. However, please note that the **confirmed period (s) of your visit should reach us latest by 14.11.2014.**

The terms of the Visiting Fellowship include: (a) The fellowship should be utilized within one year of the date of the issue of this offer letter. (b) Any publication (or part thereof) resulting from the fellowship period, should bear the name of JNCASR and be duly acknowledged. (c) On completion of the visiting fellowship tenure, a detailed report (not a concise 2 page report) needs to be submitted.

Please send your acceptance on or before **27.10.2014** to **fellowships@jncasr.ac.in**

Yours Sincerely,

(Dr. Princy Pereira)
Coordinator

Dear Sir / Madam,

Sub: TNSCST – Young Scientist Fellowship – Selection – Intimated – Reg.

Ref: 55th Meeting of Executive Committee conducted on 28.03.2017

With reference to your application cited above, I am happy to inform you that you have been selected for the award of Young Scientist Fellowship for the year 2016-2017 for a period 2 months subject to the following conditions.

- A total sum of Rs.21850/- towards fellowship for 2 months (Rs.20000/-) and II A/c travel fare (to and fro) from parent organization to the host institute, will be provided. If you travel in lower class, the grant is to be reduced correspondingly to the actual train fare.
- The training or collaborative research should be completed before the end of the year 2017.
- At the end of the programme, two copies of the research report along with the Certificate from the host Institution should be submitted.
- 2 copies of the utilization certificate in the prescribed format should be submitted to the Council as soon as you join duty after completion of the programme.
- Fellowship will not be paid if you avail any leave other than the causal leave during the training period.
- Date of relief and date of joining at the parent institution should be intimated to the Council.
- Your acceptance of this offer as per the conditions above should be informed to the Council on or before 30.04.2017

Yours faithfully,

12/4/17
Member Secretary

Re: Permanent ASCE Membership Card

Dear Dr Mohammed Sheikdawood:

Thank you for your commitment, loyalty to, and membership in ASCE. We appreciate members, like you, who make our Society strong and the civil engineering profession a vital contributor to the building of better communities and improving the quality of life for people around the globe.

Attached to this letter is your permanent ASCE membership card. You may use this card – and the barcode on the back – at ASCE events to make processing and registration more efficient.

We are proud to have you as a member and count you among the over 140,000 engineering professionals who call ASCE “home.” Should you have any questions or encounter any challenges with your membership, please contact us at (800) 548-ASCE (2723), or +1 (703) 295-6300 (International), or via email at member@asce.org. Additionally, please inform me if there is anything I can do to increase the benefit of your membership.

Sincerely,

30-Nov-2018

Dear Dr. Y:

Thank you for reviewing paper # MAC-18-0304 entitled "A Fuzzy Controlled Hybrid T-type Multilevel Inverter with a Novel Modulation Strategy for Isolated Supply Electric Systems" for Measurement and Control.

In recognition of your continued support, Measurement and Control and our publisher SAGE are pleased to offer you 60 days complimentary online access to all journals published by SAGE. Register at <http://journals.sagepub.com/page/help/reviewer-access> to activate access to content for all SAGE titles. To also benefit from a 25% discount on all SAGE books ordered online, go to the SAGE website (<http://www.sagepublications.com/>) and add the SAGE books that you would like to purchase to your shopping cart. When checking out, enter the Promotion Code GL10JR0001 when prompted. This will automatically deduct 25% from your final bill.

On behalf of the Editors of Measurement and Control, we appreciate the voluntary contribution that each reviewer gives to the Journal. We thank you for your participation in the online review process and hope that we may call upon you again to review future papers.

Sincerely,
Professor Mehmet Onder Efe
Editor in Chief, Measurement and Control

Dear Reviewers,

A decision of Reject has been rendered on manuscript JBHI-00780-2018 - Semi-Supervised Methods for Freezing of Gait Prediction for which you served as a reviewer.

You will find a summary of the reviewers' comments below.

I would like to thank you for taking time to review this manuscript and for providing valuable feedback to the authors.

Sincerely,

Dr. Ning Jiang

Reviewer: 1

Comments to the Corresponding Author

This paper presents results from an interesting study that investigated the performance of model at correctly identifying pre-Freezing of Gait windows using a combination of supervised and semi-supervised methods. While this approach is novel and interesting, several important methodological and dataset factors are not clear which makes it difficult to fully interpret and evaluate this paper.

MAJOR ISSUES:

- 1) More information is required concerning the dataset and how this dataset was broken down into events.
 - From the description of the dataset, it appears that straight line walking, walking with turns, and activity of daily living (ADL) tasks were recorded. Were all of these activities included for your subjects or just one?
 - How were Freezing of Gait events identified in this dataset? Were they expert identified during data collection? during post-processing?
 - How was the dataset broken down/processed in your algorithmic process? In Fig. 1 and Fig. 2 what was the input data? Was the algorithm presented with 5 second data chunks at a time? If yes, then what was the total number of normal gait, pre-FoG, and FoG events available per participant and overall?
- 2) In the Introduction, you emphasize the importance of identifying a FoG event before it occurs, which I agree is an important and advantageous goal. However, if your algorithm requires the entire 5 seconds before the FoG event to identify an event is about to occur, wouldn't you still be intervening after the FoG event starts?
- 3) In Section I, A, you state that class balancing was not performed because you wanted higher specificity at the cost of lower sensitivity. However, wouldn't you want higher sensitivity and the expense of lower specificity? Isn't it more important to detect all pre-FoG events even if some of them don't actually lead to FoG (false alarms are probably not as big an issue for this problem area as it is for others)?
- 4) I found it surprising in your results (Table 1 and 2) that your pre-FoG sensitivity was higher than FoG sensitivity. Shouldn't it be easier to detect a FoG event? Some explanation/discussion of these results is warranted.
- 5) Given that you are really classifying three types of events (normal, pre-FoG, and FoG events), it seems appropriate to present some confusion matrices to better understand how the model is classifying the events. This could be done to support the results presented in Tables 1 and 2.
- 6) In terms of the overall organization of the paper, I would recommend presenting II. Prior Research before I.A and I.B (Overall Architecture and Methods and Sparse Sequential Autoencoders).
- 7) Table 3 is confusing to me given that you describe your training/testing method as one subject held out. In a typical leave one out cross validation, 7 of your 8 subjects would be presented to the model for training and the 8th would be withheld and all of that subject's data used for testing. This would be repeated until every participant has been the test subject. However, in Table 3, each participant's data is broken down into training and testing events, which does not conform to a leave one out methodology. Furthermore, the break down of training to testing events is not consistent (in terms of % breakdown) across participants.

MINOR ISSUES:

- 1) Figures 4 to 8 are too small.
- 2) Please provide references to back up the following key statements in your manuscript:
 - A) Introduction, lines 46-47: "However, as the effect of continual cueing wanes over time [?],..."
 - B) I.A. "corresponds to a common location for smartphone accelerometer placement [?]"
To me the lower back is a much more common location than the thigh.
 - C) I.A. "Utilizing body-worn accelerometers alone for FoG prediction, a task for which there has been limited academic exploration [?]."
- 3) The term "lightweight" used in I.A. and the Conclusion to describe the system could refer to the low mass of wearable accelerometers or low computational complexity. I would suggest using a word (or words) that are more specific to the exact meaning intended.
- 4) It seems odd that Fig. 7 and 8 are the only ones for which supervised data by itself are not presented.
- 5) Conclusions: Does the 200 training events refer to FoG events only? This ties back to Major Issue #1.
- 6) It would be interesting to know the age of the patients, whether data was collected in a medication on or off state, and other relevant information. Furthermore, for how many of the patients did you have a second dataset with rhythmic auditory stimulation? Did you try training your model without these second datasets and were the results different?
- 7) Ref 4 and 17 seems to have spacing issues in the titles.
- 8) Ref 7 has AUG as the issue.

Reviewer: 2

Comments to the Corresponding Author

The authors have presented a very comprehensive and technical sound manuscript. The detection of FoG events is very crucial in Parkinson symptom analysis, since FoG is directly related to patient OFF periods. OFF periods are the main clinical outcome that physicians look in order to adjust medication treatment. On the other hand, FoG prediction could be used in auditory systems for prevention even if this is still to be clinically validated. The manuscript provides some new roads for FoG detection and prevention which are already visited in other research areas such as EG based Epileptic Seizures detection/prediction and Fall detection/prediction. It is a really interesting manuscript; however, a number of comments should be addressed before considering publication.

Major Comments

1. I would strongly recommend authors to enrich the state of the art with applications of LSTM and autoencoders in similar problem with a lot more literature such as Epileptic Seizures detection, Elderly Fall detection/prediction and video/speech recognition.
2. Authors should provide more insight on the unsupervised features and their encoded information and their potential relation with the supervised features (i.e. correlation). Fig. 6 is rather informative. Authors are strongly advised to present cases for more patients (all if possible) and also include the raw data. Moreover, from Fig. 6 someone can tell that unsupervised features have very low intra-subject variability compared to supervised ones. The root cause for that should be further investigated and discussed.
3. Authors should provide more information on how raw input accelerometer data are introduced in the network. The 5-second window is only mentioned in the discussion of the manuscript. Moreover, based on previous studies this window could be considered large. Window impact on classification accuracy should be studied or at least discussed. Moreover, authors should discuss if any signal preprocessing step was applied. Authors should also consider instead of using the raw data using the spectrum instead. Similar approaches have been used for epileptic seizure prediction using deep learning ([1], [2] to name a few).
4. Regarding evaluation metrics discussed in Page 6, Col. 1 authors could review the literature in epileptic seizure detection from EEG or Fall prediction/detection from IMU sensors which are rather similar problems.
5. Authors are suggested to add statistical measures (p-values) when comparing accuracy of classifiers and also include absolute numbers in the confusion matrices, which is recommended when handling unbalanced datasets.
6. Since the presented method is based on a public available dataset, authors should consider including a comparison table with existing methods in the literature. The purpose of the manuscript is not to provide the most accurate FoG detection method and authors provide a brief discussion on this issue, but in any case, such a table could be useful for the reader.
7. I totally agree with the discussion and author future work directives. I am not an expert in Autoencoders and deep learning but based on my experience on similar fields I could strongly suggest to seek for network topologies and learning methods that combine a generative function (basic gait/pre-gait patterns) and discriminative function (Fog/Pre-Fog vs Normal). Such an approach could work better in "hard" cases. Those "hard" cases could be identified in the presented manuscript and discussed for which cases the unsupervised features perform comparable to supervised ones.

Minor Comments.

1. X and Y axes legends in Figure 6 are probably wrong.

Comments to the Corresponding Author

Abstract:

Very well prepared. Explanatory. The topic has not been summarized. The problem is defined. The methods used are given.

Keywords: very well chosen, sufficient.

The problem is well defined. The literature review is very good. Ordinary and known methods have been used (with different parameter settings). The equations are written correctly. All the symbols are explained.

simple but need answers to understand the method used to create the feature space.

The Sensitivity and Specificity value of the results obtained are not sufficient. And also, what is the classifier's accuracy (at both the training and testing phase)? Data from more number of events acquired from less number of subjects are inadequate. The article is not ready for publication.

Dear Sir,

Sub: Request for subscribing a Bi-Monthly journal- reg.

I wish to bring to your kind notice that the organization, English Language Teachers' Association of India (ELTAI), which was founded in 1974 has extended its services to the English teaching community and research scholars. It brings out a Bi-Monthly journal, 'The Journal of English Language Teaching', which is widely read by more than 4000 members of this organization across the globe. It publishes research articles written by practicing teachers, who have tried various emerging tools for teaching. They also deal with their classroom practices, which provide valuable inputs to practicing teachers and research scholars.

As one of the members of this noble organization, I would like to subscribe for the institution for the benefit of language teachers and research scholars of our department. Since the subscription for 10 years is only Rs.3000/- (Donor membership), I would like to subscribe for the same in order to receive more and more updated information on teaching practices for ten long years. I am herewith submitting the basic details of the journal and subscription along with the copy of the membership form. I request you to permit me to subscribe for Donor membership and also sanction the above-mentioned subscription amount.

Looking forward to receiving a favourable reply from you,

Yours truly,

Revathi Viswanath

The Chennai teachers -- Catherine Anna Pushpam, Ananthan Balakrishnan and P Rathna who won awards in the 'English in the Classroom' competition organised by Cambridge English Language Assessment.

Cambridge honour for city teachers

NT Bureau

Chennai, Dec 29:

Three Chennai teachers -- Catherine Anna Pushpam, Ananthan Balakrishnan and P Rathna have won awards in the 'English in the Classroom' competition for developing activities for learners, organised by Cambridge English Language Assessment (a part of the University of Cambridge).

Catherine, who is an assistant professor at BS Abdur Rahman University, developed an exam-based classroom activity for higher education/tertiary learners, said, 'This activity focuses on Part 3 of the BEC Preliminary Speaking test. It gives practice for the students to

discuss ideas, particularly by using appropriate phrases/words while agreeing and disagreeing with others' opinions.'

Ananthan Balakrishnan, who is an associate professor at Hindustan University, has developed an exam-based classroom activity for tertiary/higher education learners.

Rathna, an associate professor at BS Abdur Rahman University, won an award for the most collaborative participant, said a press note.

Cambridge English Language Assessment launched the competition for English teachers on the occasion of Teachers Day 2015 targeting teachers in schools and the higher education segment.

Dear Catherine Anna Pushpam,

We are happy to announce that you have won the first prize in the Tertiary/Higher Education category in the English in the Classroom competition 2015. Congratulations! Your entry was greatly appreciated by the judges.

We hope you had a pleasant experience throughout your participation in the competition and will greatly appreciate it if you could acknowledge this email and take a moment from your busy schedule to share your thoughts on this experience.

We look forward to hearing from you.

Thank you.

IAENG is a non-profit international association for the engineers and the computer scientists. IAENG has been found by a group of engineers and computer scientists from over thirty different countries. Our goals are to promote the co-operation between the professionals in various fields of the engineering and to cultivate an environment for the advance and development of the technology. Our objectives include:

- Promoting the interactions between the engineers;
- Advancing the application of engineering techniques from the academics to the industry;
- Facilitating the exchange of information and ideas among the engineers and scientists freely.

This letter is to certify that the above person is an IAENG member. For the information about IAENG Membership, please visit our website <http://www.iaeng.org/membership.html>

If you have any question, you are very welcome to contact us at any time.

Sir,

Sub: Intimation regarding Board of Studies Meeting -Alumni Reg.

I am happy to inform you that the meeting of the Board of Studies (Mechatronics, Aero & Auto) will be held at 10.00am in the A Block Board Room of SNS College of Technology on 09.07.2018.

You are kindly requested to attend the meeting and render your valuable suggestions.

Thanking you

Yours faithfully

R. Vivekanandan

Dr. P. VIVEKANANDAN M.S.,M.E.,Ph.D

Dear Dr.Saibalaji,

It is proposed to conduct One Day workshop on "**Challenges and Innovations in Advanced Polymeric Composites**" in the Department of Mechanical Engineering, Kamaraj College of Engineering & Technology on 23rd **February 2017**.

We request you kindly accept our invitation and deliver a Guest Lecture on the above topic for one session "**2.00 to 3.15 pm**" to the participants of the workshop.

With Regards

Dr. S.S.Saravanakumar, M.E, Ph.D.,
Associate Professor,
Department of Mechanical Engineering,
Kamaraj College of Engg & Technology,
Virudhunagr-626001,
TamilNadu, India.

Greetings!

Dear Sir,

Sub: Invitation to be a resource person for the Faculty Development Programme on "*Advanced Materials & Manufacturing Technology*" at Ramaiah Institute of Technology, Bangalore from 4th to 16th December 2017 – Reg.

The Department of Mechanical Engineering is Organizing Faculty Development Training Programme on *Advanced Materials & Manufacturing Technology* at Ramaiah Institute of Technology, Bangalore from 4th to 16th December 2017. This programme is sponsored by AICTE. I take this opportunity to invite you to deliver a technical talk on 07-12-2017 (09:30 AM – 11:00AM) on the topic of your research interest.

We are very much looking forward for your presence.

Thank you very much.

To

The Registrar
B S Abdur Rahman Crescent University, Chennai

Respected Sir,

Sub: Requisition for ONDUTY for carrying out a Consultancy work/Turnkey project at Malaysia – in collaboration with- M/s.Fricmart Private ltd - 01/07/2017 to 12/07/2017-reg.

I carried out testing of brake pads for my research scholars in M/s.FRICMART Ltd, manufacturer and supplier of friction materials, New Delhi. During research work/Internship, the management of the company was impressed by my team and offered few real life problems (corrosion of brake pads) faced by them. As a result, they added two more new testing facilities in their testing centre with our assistance.

At present, they are handling a turnkey project in Malaysia, and hence M/s. Fricmart is requesting me to accompany him to Malaysia, with my team to give necessary inputs in the area of Tribology.

Our team consists of Dr.Rasool Mohideen, Mr.K.Sathick basha and Mr. B.Suriya rajan has decided to visit Malaysia to get exposure to braking system in Malaysian terrain.

Dr.Rasool Mohideen, Dean of the Mechanical Sciences could not accompany us citing administrative reasons. We kindly request to grant ONDUTY for myself and Mr. K.Sathick Basha during the period of 01/07/2017 to 12/07/2017, both days inclusive.

Encl: Invitation from M/s.Fricmart

Dear Sir/ Madam,

Sub:- Permission to Mr. C. Sivakumar, Executive Committee (EC) Member, Society of Automotive Engineers India, Southern Section (SAEISS), to visit and Inspect participating colleges of Tractor Design Competition 2018

As you may be aware, our Society of Automotive Engineers India is one of the leading non-profit organisations serving the Automotive Engineers to achieve the vision of SAE Intl. generating and disseminating the knowledge for the Automotive Society.

We are deputing Mr. C. Sivakumar, EC Member-Champion of SAEISS to visit and Inspect the tractor build by different participating colleges of Tractor Design Competition (TDC 2018) from 14 to 18 May 2018. This visit will enhance his professional knowledge and expertise in automotive engineering and off-highway Vehicle domain. And also the experience gained from these events would be useful to organise similar events in your organisation and take the SAEISS Tractor Design Competition to next level.

We shall thank you to grant him Permission.

Yours Faithfully

Sir,

Subject: MIT- Auto-SAE collegiate club of MIT-Invitation to deliver a lecture on

"Activities of SAEISS and benefits for students" -Reg

We are glad to inform that our SAE collegiate club of MIT is organizing a seminar on "Activities of SAEISS and benefits for students" on 10.03.2017 between 2.00 pm to 4.00 pm.

In this connection on behalf of SAE collegiate club of MIT, I invite yourself to deliver a lecture on "Activities of SAEISS and benefits for students"

In this regard, it is requested kindly to accept our invitation and confirm your acceptance at earliest in order to make the necessary arrangements. For any queries, please feel free to interact with Mr. B Vasanthan, Assistant Professor and Faculty Adviser (SAE collegiate club of MIT) (Mobile :9894864529; E. mail:bvasanthan@mitindia.edu)

Thank you for your kind cooperation in this regard.

Yours faithfully,

10 October 2013

To Whom It May Concern:

This is to confirm my long-term and very fruitful research collaboration with:

Raj Rajendran
Professor and Head
Department of Mechanical Engineering
School of Mechanical Sciences
B S Abdur Rahman University
GST Road, Vandalur
Chennai - 600 048, India

Professor Rajendran first visited my University for three month in early 2010, financially supported by a prestigious Royal Society International Travel Grant. During that visit, Professor Rajendran initiated a further project idea, "Microstructure, tribological and electrochemical corrosion behaviour of electroless Ni-P-SiC coatings on aluminium for cylinder liner applications".

In 2012, this project was funded by my University, as one of the only 11 University/International PhD studentships for the entire University. The project started in December 2012.

Professor Rajendran visited Belfast for the week of 8-12 April 2013, for research work and collaboration in this PhD project and in particular providing training on wear testing as part of our research collaboration. A research paper from the results in this PhD project has recently been published:

Phase composition, microstructure and microhardness of electroless nickel composite coating co-deposited with SiC on cast aluminium LM24 alloy substrate. M. Franco, W. Sha, S. Malinov, R. Rajendran, *Surface and Coatings Technology*, 2013, doi: 10.1016/j.surfcoat.2013.08.063.

Dear Dr R Rajendran

Request to be Jury Member

For over 50 years, the Automotive Component Manufacturers Association of India (ACMA) has been working to facilitate a greater synergy between various stakeholders of the automotive component industry. ACMA Centre for Technology (ACT) was formed in the year 1989 with a mandate to provide technical support and service to auto component industry. ACT has delivered since, in multiple configurations, with available resources and professionals from the industry.

To achieve excellence in manufacturing, we need competent people and robust systems / processes. In keeping with industry needs, ACT has pioneered implementing quality projects in component manufacturing units. Since its inception, ACT has helped more than 500 + manufacturing plants all over India through its signature - ACT Cluster Programs and services . ACT is also involved in designing and implementing ACMA Awards, Domestic & International Study Tours, Seminars and Conferences.

Dear Ms. Subhashini,

Achievers never expose themselves, but their achievements expose them.

Hearty Congratulations on behalf of Ooruni foundation as you are one of the rightfully deserving winners of WWAA 2018 as **Rockstar** in the **Education Sector category**.

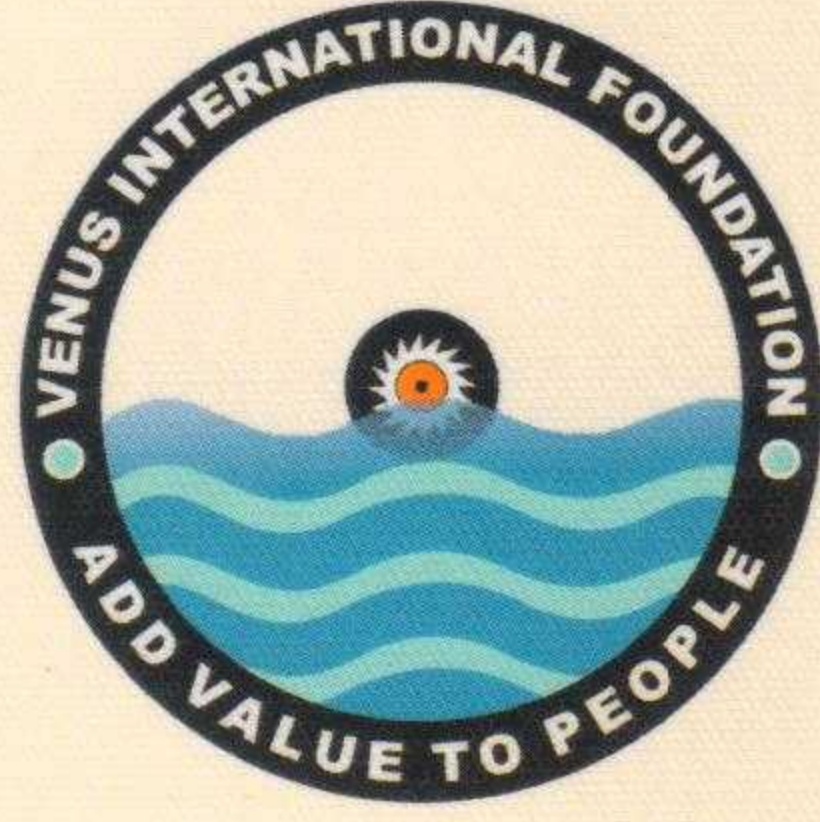

We are extremely happy to welcome you to the Awarding ceremony on 3/March/2018 from 3.30 pm onwards at MCC School - Chetpet, Chennai 600 031, along with your family members.

We wish you more success, happiness and deserving awards in future.

Kindly respond to 8610433196 / 8939466555 by SMS or whatsapp with the exact number of attendees along with you to enable us furnish you with more convenience during the Awarding Ceremony.

Warm regards,

Rathinavel Rajan,**Founder,****Ooruni Foundation.**

Dear Madam,

Subject: Invitation Letter to receive Young Woman in Engineering Award' during the Annual Women's Meet (AWM) 2018 - Reg.

It is my pleasure to inform that, you have been selected as a Young Woman in Engineering (Specialization - Computer Science and Engineering) of the Venus International Women Awards-VIWA 2018 (<http://viwa.info>) that is to be celebrated on 3rd March, 2018 at Radha Regent, Chennai City, India during the 3rd Annual Women's Meet - AWM 2018 (<http://venusinfo.org/research/awm/2018/info.html>).

The Award (Certificate, Bronze Medal and Memento) will be presented to you by the VIF Board of Trustees. I invite you to receive the award in person and hence kindly make it convenient to attend the ceremony.

My hearty congratulations to you on this well deserved recognition. I sincerely hope that you will continue to strive hard to prove your potential in the coming years.

Please confirm your participation and convey your travel plans. For further details please visit: <http://viwa.info/2018/list.html>

Congratulations once again.

I look forward to greeting you personally at the award presentation ceremony.

Sincerely

Re: Permanent ASCE Membership Card

Dear Dr Mohammed Sheikdawood:

Thank you for your commitment, loyalty to, and membership in ASCE. We appreciate members, like you, who make our Society strong and the civil engineering profession a vital contributor to the building of better communities and improving the quality of life for people around the globe.

Attached to this letter is your permanent ASCE membership card. You may use this card – and the barcode on the back – at ASCE events to make processing and registration more efficient.

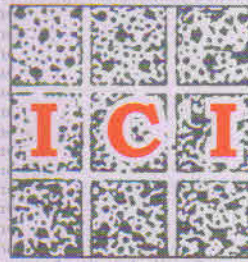

We are proud to have you as a member and count you among the over 140,000 engineering professionals who call ASCE “home.” Should you have any questions or encounter any challenges with your membership, please contact us at (800) 548-ASCE (2723), or +1 (703) 295-6300 (International), or via email at member@asce.org. Additionally, please inform me if there is anything I can do to increase the benefit of your membership.
