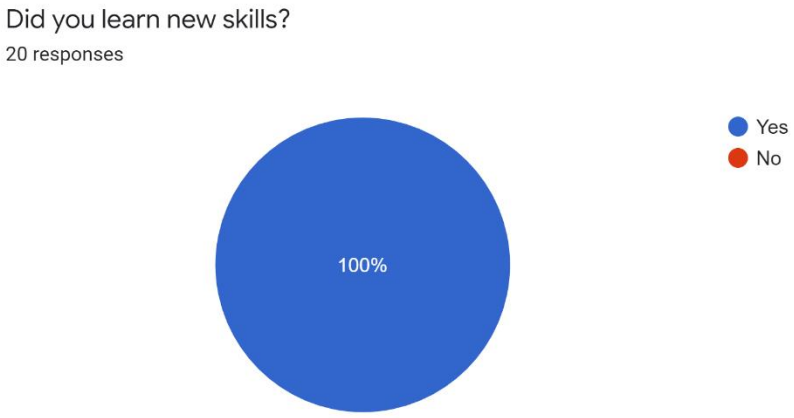
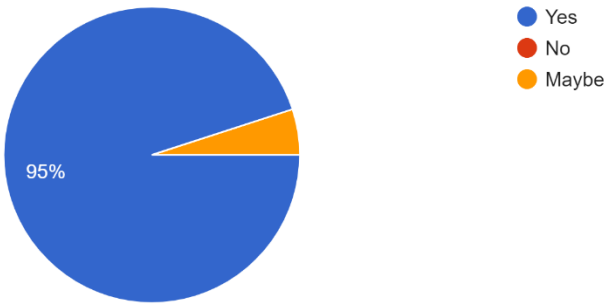
Feedback



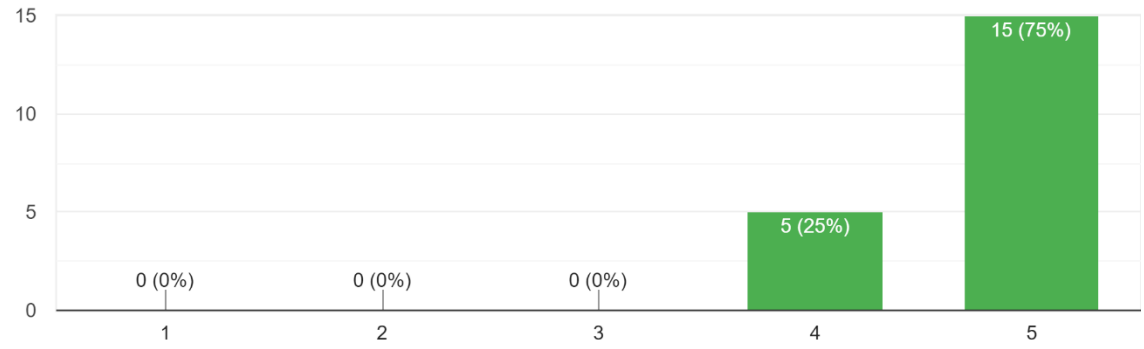
Would you recommend the same workshop to your friends & students?

20 responses



Did the workshop satisfy your expectations on the topic?

20 responses



Please mention how would you use Origin for your research? 15 responses

To work on graph for thesis and paper
Paper publication and thesis
Graph representation in thesis and journal
Analysing linguistic data
Right tool at the right time for analysing my data. This will help to improve the quality of my thesis in sha Allah
for paper publications
Now better and smooth graph can plot easily
XRD and other data plotting - Started working on it - Thanks
Yep
For paper preparation
Prepare attractive graphical representation
The data I have has multi-Y axis. I learned new way to represent the data using Origin such as staked plot, scatter plot etc.
For graphs in research
For Basic Plotting
characterisation graphs

Anything that could of be improved in this workshop for the future? 20 responses

Nil
recorded video file of the workshop can be shared
No
Nothing
Little more humanities friendly
A lot to explore. Time may be extended.
various task can be assigned for the users
How to plot the graph of wavelet transform using origin?
Kindly tell us evaluation techniques also else then plots
in the future, this type of workshop can be conducted during non-academic periods or weekends. So that everyone can utilize these learning opportunities.
Time is too short
2 days complete training would be effective
Few more examples shall be discussed
nil
1 day workshop with more plots could be discussed
Everything is good regarding the conduct of the workshop
Program schedule can be given priorly

Please mention the topics that you would like the Dean Research Office to organize webinars/workshop on? 20 responses
